Opis produktu

From the forest of Gespegewagi with hate "The Green Enchanted Forest of the Druid Wizard" is reborn... This new extended version features a lengthy bonus track never published before entitled "The Madness of Suibhne".

A journey in the solitary confinement of the northeastern Canada awaits your mind. Ifernach "The Green Enchanted Forest of the Druid Wizard" is an atmospheric, mysterious and furious black metal requiem to the glory of lone wood where no men's dare entering. Bombastic percussions, epic tremolo riffs and raging screams are alternating with gloomy, otherworldly ambient segments. "The Green Enchanted Forest of the Druid Wizard" is showing a new dimension Ifernach's supernatural spirit.
