Immortal (NOR) – To the North and Into Eternal Winter – Live in Darkness 1993-1995

Warning!

If you discovered IMMORTAL after 1995, this record might not be for you.

These recordings capture the band during the 1993 *Fuck Christ Tour* and the 1995 *Battle Of The Ages Tour* — raw fan-recordings, unpolished, and unapologetically real. No sterile soundboard perfection. No studio correction. Just the unfiltered force of a band in its purest form.

These recordings breathe the spirit of a time when Black Metal was still young, dangerous, and defiantly outside the mainstream. A time before trends, before marketing, before compromise. When the scene was built on tape trading, dedication, and cold conviction.

This is a document of an era that will never return — a glimpse into the formative years of a band that reshaped Black Metal from the shadows.

Restored and remastered by Patrick W. Engel at the Temple of Disharmony.

To the North and Into Eternal Winter – Live in Darkness 1993-1995 is also available as LP in two colors, jewel-case CD and digital.
