03 Planetary Paroxysm
04 Killing Pace
05 Gravebound

06 Tyrantula
07 RatoGod
08 Crown of Mediocrity
09 Fait Accompli

Coinciding with the band’s European tour in June 2026, High Roller Records re-releases “Rat God” (2021), “Fearsick” (2022), and the “Panic Prayer” EP (2023) by US death metal powerhouse Inhuman Condition.
Formed in late 2020, Inhuman Condition unites three seasoned veterans of the genre: Jeramie Kling (Overkill, ex-Venom Inc., ex-Massacre) on vocals and drums, guitarist Taylor Nordberg (Deicide, Umbilicus, ex-Massacre), and Terry Butler (Obituary, ex-Death, ex-Six Feet Under, ex-Massacre) on bass. With roots deeply embedded in the legacy of classic Florida death metal, the trio quickly established a reputation for delivering relentless, and unapologetically old-school extremity infused with modern precision and songwriting clarity.
The group’s debut full-length “Rat God” introduced their signature blend of crushing mid-tempo grooves, razor-edged riffing, and commanding vocal presence. Praised for its clear and powerful production, dynamic guitar work, and unmistakable homage to early 90s death metal, the album delivered headbanging anthems such as ‘Euphoriphobia’, ‘Crown of Mediocrity’, and ‘Planetary Paroxysm’, marking Inhuman Condition as a veritable force carrying the tradition forward.
With “Fearsick” (2022), the band sharpened their attack while staying true to their core identity. Featuring artwork by Dan Goldsworthy and produced by Jeramie Kling, the album expanded the sonic palette with atmospheric touches, crushing riff sequences, and memorable hooks, thus cementing the band’s status.
The “Panic Prayer” EP (2023) showcased three new tracks and a cover of Blue Öyster Cults ‘Godzilla’ alongside raw live recordings capturing the band’s ferocious stage energy.
High Roller Records’ 2026 re-issue campaign offers fans the chance to rediscover the early catalog in premium physical editions, celebrating the recordings that established Inhuman Condition as a modern standard-bearer of classic death metal intensity.
