Opis produktu

I'm proud to present the vinyl version of one of my favorite Black Metal records of all time: "Lechery Maledictions and Grieving Adjures to the Concerns of Flesh" from Inthyflesh.

Sharp, venomous, insidious, frenzy, melodic, perverse and unapologetic, "Lechery Maledictions..." is based on the works of Sade and Bataille, but goes beyond its influences to create a body of work that still impacts with the same violence as it did thirteen years ago.

Featuring the guest appearances of Ravenlord (Woods of Infinity) and Gonius Rex (Onirik), this album is the peak of a very special and effervescent period of Portuguese underground. Hand-numbered black vinyl edition.
