Opis produktu

Dark and epic metal from 1993 from the solo project of **Darkthrone**'s **Fenriz**.

The original version of 'Vinterskugge' consisted of 3 separate recording sessions conducted between 1989 & 1993, and covered a multitude of styles, including doom, rock, folk, death, black & viking metal. 'Vinterskugge' also demonstrated Fenriz's breadth of vocal styles, lending an epic edge to many of the tracks.

Containing the opening chapter from 'Vinterskugge', the masterful '**Vandreren**' tracks became an inspiration to a generation for its folk-tinged epic viking anthems, dark atmospheric tracks and additional doses of black metal grimness.

Black vinyl edition including photography from Fenriz, plus additional lyrics.

Isengard was the solo-project started in 1989 by Fenriz - one the key driving forces behind Norwegian legends Darkthrone - because he had many musical ideas to explore that didn't strictly fit in with the style and music of Darkthrone. Under the Isengard moniker, Fenriz has a trio of releases, 'Vinterskugge', 'Høstmørke', and most recently the further collection of Fenriz's early and rare recordings, released in 2020 as 'Varjevndogn'.
