Jess and the Ancient Ones: Jess and the Ancient Ones LP/CD Svart Record’s 15th Anniversary Edition

Back in 2012, the **Jess and the Ancient Ones** debut album was an essential part of what was known as the occult rock revival. The band's progress has since then ventured beyond such sub-genres, but the debut remains a cult classic, with its triple guitar NWOBHM-influenced melodies and furious vocal delivery. On this album, the band's lyrical concept is based upon the personal occult experiences of the writers. Combined with music it creates a strong mystical atmosphere.

With the vocal talent Jess as their frontwoman and three guitars in the lineup, **JATAO** draws inspiration from heavy metal and rock groups of the classic era, such as **Mercyful Fate**, **Roky Erickson**, **Iron Maiden** and **Abba**. The album was recorded in December 2011 by Necromorbus Studio, known for their previous work with bands such as **Watain**. The result of these sessions is the eponymous album, a 53-minute moonlight ride into the nether regions of progressive occult heavy rock.

Svart Records releases the new edition of this modern classic on December 20th, 2024 as a part of the record label’s 15th anniversary. **Jess and the Ancient Ones**’ self-titled debut album will be out on CD, black and transparent lime/black marble vinyl. Moreover, **Svart Records**’ webstore has a limited edition of 150 copies package of green/red/purple marble vinyl version of the self-titled debut album, limited edition of *Astral Sabbath* mini album with a special slip mat – all of these are packaged in a unique **Jess & The Ancient Ones** tote bag.
