Comes in a beautiful digi-CD with booklet.

“Emellan Träden” is a raw and haunting journey through icy melodies and endless darkness!

For fans of Enslaved, Vintersorg and Borknagar!
Jord drag their sound deeper into the forest on their new album “Emellan Träden”, a towering, windswept slab of atmospheric Black Metal!
Formed by Jörgen “Jurg” Ström (ex-Rimfrost, ex-Skineater) in 2020 as a solo project, Jord built two albums (“Sol” and “Måne”) straight from the gut, before evolving into a full band. With guitarist Sebastian “Hravn” Svedlund (Rimfrost, Omnicidal) and drummer Stefan “Jansson” Jansson (Omnicidal) locking in, Jord found the weight and muscle their music was begging for.
Recorded again with Micke Andersson at Studio Soundport, the new album keeps Jord’s heart; atmospheric Black Metal shot through with Post Rock and Folk undercurrents, but hits harder, breathes deeper.

Songs weave through towering riffs, soaring clean passages, hypnotic rhythms, and moments of total collapse.
