Opis produktu

Katatonia celebrate the 15th anniversary of its classic **Night Is The New Day** with a **2024** red/black marble vinyl **edition**.

“Night Is The New Day as 'possibly the greatest 'heavy' record I have heard in the last 10 years... it truly is a masterpiece!” - Mikael Åkerfeldt (Opeth)

Mastered at half-speed at Air Studios.

The band's eighth album, Night Is The New Day saw a continuation of the heaviness and depth of their previous album - The Great Cold Distance - with the band additionally creating a more eclectic sound (alternating between Prog moments, Doom, Folk & the classic melodic anthems that were and still are staple to Katatonia's uncompromising sound).

‘With a genuinely unique take on Metal, Katatonia have created a masterpiece.’ - Guitarist Magazine

‘With Night Is the New Day Katatonia have displayed a remarkable level of restraint and dynamic prowess whilst displaying a fuller grasp of the musical gamut than ever before.’ - Prog Magazine
