Opis produktu

NoEvDia, black vinyl, insert, re-issue 2026

Twenty six years after the original release of 666 on Sombre Records, NoEvDia is infinitely proud to present the first and only official reprint on vinyl of this work of cruelty and darkness.

Erik Danielsson designed the layout based on Timo Ketola‘s iconic cover artwork for the 2004 album’s version paired with the ominous death noise of the original MC version from Harvester Records. The special vinyl master of this album is based on the sole authorised source, and was cut by the same studio who handled the original Sombre Records pressing.
