## Opis produktu

Uncompromising, with their backs to the world and a fierce grin! KOLDBRANN has been at the forefront of the Norwegian Black Metal underground since the band was formed in 2001. Now a new chapter is at hand! Expect a relentless display of pitch-dark disharmony! This 7" single contains two exclusive tracks, not included on the upcoming album. Led by Mannevond's characteristic, strict vocals and Kvass' cunning Norwegian lyrics, KOLDBRANN has delivered the real goods from day one. With obscure and unique riffs, free from all trends and plagues. From the raw and cold debut "Nekrotisk Inkvisition" (2003), to the varied and distinctive "Vertigo" (2013). KOLDBRANN has been a notorious live band since the beginning, touring with bands such as TAAKE, URGEHAL, ENDSTILLE, MARDUK and SHINING, and making a mark at principal festivals such as Hellfest, Inferno, Party.San and Wacken.
