### SRUIN210

East Coast raw death metal/punk savages Kontusion finally release their pulverizing debut self-titled demo on vinyl, CD and cassette (reissue) via Sentient Ruin, in the wake of its original 2022 self-release on tape and digital formats. Upon release the four-track, seventeen-minute slab of necrotized terror saw the duo of drummer Chris Moore (Repulsion, Coke Bust) and of vocalist, guitarist and bassist Mark Bronzino (ANS, Mammoth Grinder) revel into a gore-splattered, chaos-torn disfiguration of lo-fi, blown out primitive death metal and punk-infused carnage reminiscent of (and influenced by) 80's and 90's bands like Terrorizer, Napalm Death, Discharge, and Convulse. The four skull-crushing tracks see Kontusion regress to a state of demented, feral abandon, incorporating influences from raw punk and hardcore to deconstruct death metal and reduce it to a mangled and scattered pulp reeking of terror and shrouded in destruction.
