Opis produktu

Along with the coming of Fall, the time has come to announce our future release "Naviy Skhron". We are sure it will be hard to understand and take this release. It consists of 6 very peculiar ambient tracks which were made in collaboration with Clin, keyboardist of Ukrainian cult band Reusmarkt. It also contains 3 black-metal tracks (which are also of very uncommon style for Kroda). All of the tracks are so dissimilar that none could be a quintessence of the whole album's preview. That's why we have decided to choose the cover version of the classic Ukrainian Black Metal - "Under the Banners of the Horned Knjaz" by Nokturnal Mortum as the representative of this release. Album will be released on Samhain, as always in digipack format at German label Purity Through Fire. Limited supporter's package edition contains digipack + t-shirt and already available for pre-order via Purity Through Fire.
