NoEvDia proudly presents “Evangelii härold”, the third studio album from Swedish Black Metal band Lifvsleda.
Like its predecessors, “Evangelii härold” seamlessly blends razor-sharp riffing with a keen sense of melody and memorable structures. What sets the album apart is its distinct percussion style – a sophisticated mix of traditional Black Metal and a commanding, martial approach, strengthening the immersive buildups. The adept use of reverb amplifies this effect, creating a dense, atmospheric soundscape. Lifvsleda’s vocal delivery remains unparalleled: inhuman in its timbre and uniquely expressive, further enhancing the music’s distinctive aura.
“Evangelii härold” marks a natural evolution from “Sepulkral dedikation” (2022), adhering to the deep-seated traditions of Black Metal both in form and spirit. By delving deeper into the genre’s core and origins, the album refines Lifvsleda’s musical structures and overall compositions. It’s a journey inward and backward through bleak atmospheres, strongly connected to ancient visions of the Devil and death in all forms – bringing the undead underworld of the past back to life.
