Opis produktu

Sepulchral London entity **LIGHT OF THE MORNING STAR** arrive on DMP in predatory style with second album "**Charnel Noir**": a towering collection of shadow-songs, moreish as blood to hungry vampiric mouths. Potently blending cinematic Deathrock, ghoulish Doom, heavy Post-Punk and atmospheric Black Metal, "**Charnel Noir**" is a hook-ridden exploration of the necromantic Undead which captures the restraint, tension and dark romanticism present in the great canonical Gothic works. Central to **LIGHT OF THE MORNING STAR** are the seductive, hypnotically evocative vocals, given room to soar over sleek, reverently-produced arrangements with all fat removed like useless flesh from an ancient corpse. Music for night hours and sanguine addictions.

Comes in a 6-panel digipack w/ 16-page booklet. First batch comes in black polycarbonate CD.
