Opis produktu

LOBOTOMY was a Swedish death metal act from Stockholm formed in 1989 and split-up in 2000. The band released several demos in the early 90s and three full-length studio albums, before the band folded in 2000. This vinyl contains two of their best and most anticipated demos: 'When Death Draws Near' demo 1990, and 'Against The Gods' demo July 1992. All songs restored and remastered by Achilleas Kalantzis at Suncord Audio lab (Vio Lence, Possessed). Line notes by Olivier 'Zoltar' Badin (Cathedral, Dark Funeral re-issues) and extensive interview by Nicola Constantini *ENCYCLOPEDIA OF SVENSK DÖDS METALL*. Including productions by Thomas Skogsberg at Sunlight Studios (Entombed, Grave, Dismember)
