Lunar Chamber, a hitherto unknown being of mysterious consciousness, now present in the physical realm for the first time with debut manifestation ‘Shambhallic Vibrations’ , a tale of a journey eastward in search of enlightenment and what may lie beyond.

Ensconced in mysticism, the 5 track nearly 30 minute pilgrimage advances unflinchingly through insane crushing riffs, bewildering solos, tranquil acoustics and illuminated ascendent melodies. “Spirit Body and the Seeing Self” details the start of the journey, self analysis, and the attempts at launching oneself into said “beyond,” while “The Bodhi Tree” is a mirroring tale of Gautama Buddha himself, having meditated underneath it in Bodh Gaya approximately 2500 years ago, attaining enlightenment.

“III. Crystalline Blessed Light Flows... from Violet Mountains into Lunar Chambers” is the ultimate pinnacle of the tale. Having reached a spiritual plane, pulses of light and dark; the very fabric of space-time itself churns. Knowledge is abundant here. Eventually, one is brought full circle, right back where everything began in normal life; albeit with a new sense of everything. But there is so much more to learn... a yearning thirst.

Offering a deluge of jarringly brutal metal, overwhelming progressive physicality and instinctively accomplished memorability inspired by Buddhism, the East and esotericism, Lunar Chamber have just begun their quest of ascension and enlightened knowledge.
