## Opis produktu

Composed and recorded by Henri Sorvali, also known as Trollhorn (from Moonsorrow, Finntroll, etc) back in Summer 1998 -Winter 1999, "The Sleeping Green" recording has never seen the light on a physical format until today. For this special occasion, this green pro-cassette version include a never published bonus track recorded back in 1997 entitled "Eben Ocean". "Eben Ocean" is a long, trance inducing, ethereal composition that recalls Klaus Schulze's work, or even modern darkened techno such as Demdike Stare and the like. Released in partnership with Hospital Productions.
