Black vinyl & Insert.

LVME join the NoEvDia ranks with their second album, “Of Sinful Nature”.

LVME steadfastly uphold the essence of traditional Black Metal while boldly broadening their musical scope. “Of Sinful Nature” presents five expertly crafted tracks that defy conventions. This album is an intense Black Metal sermon, marked by a fluid fusion of complex riffs and surprising twists; a powerful expression of raw, unbridled and rebellious energy.

“Of Sinful Nature” stands out with its authentic production quality – a real treat for those familiar with the feral force of an analogue drum kit. The album’s production harks back to the organic sound of earlier decades, enriched with the grit of all-analogue mastering.

Once you immerse yourself in “Of Sinful Nature”, you’ll be swept away by its commanding presence for forty-five minutes. This album is an experience to be embraced and surrendered to, a celebration of Black Metal and its conquering spirit.
