Opis produktu

PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 10 PAŹDZIERNIKA !!!

Originally released in 1998 "Estrella" completed that magic and essential "5 stars / albums" serie from the 90's (Ionia, A Day in the Stark Corner, The Burning Circle and Then Dust, Cold, Estrella) that marked LYCIA discography inescapably.

The album is now offered in a completely remastered edition, with largely revisited artwork too and three bonus songs (taken from "Compilation Appearances Vol. 2").

"Estrella" comes again in a beautiful packaging, gatefold sleeve, double LP in various vinyls colors. CD has been greatly treated too and comes in a six-panels folding digipak.

Please note: US label Projekt will carry copies on a dedicated vinyl color (transparent purple vinyls): if you live in the US and prefer to save on shipping please restrain ordering from us. We will not be able to refund your order afterwise because this will mean that you will lose money (in fact Bandcamp will NOT refund us their fees nor payment process fees!). American fans should order from us only when wanting these specific editions that we are offering.
