Six panels digipak CD

Lys is the mastermind of Enisum, the well-known Italian atmospheric black metal band. After focusing on his main band for over a decade, the time came for the musician from Val di Susa to temporarily focus on something different. Here comes Silent Woods, Lys first solo album, a mélange of atmospheric black metal, acoustic music, nature, landscapes, mountains, rivers and forests.

Similar to yet different from his main musical endeavours, Silent Woods shows a varied sound palette, with the usual Enisum references (Agalloch, Wolves In The Throne Room and the Pacific Northwestern scene) and some twists. Acoustic guitars and clean vocals find their way in, and so do more extreme elements, such as gurgling screams and hypnotic, circular guitar riffs with clear depressive black metal references (Xasthur, Leviathan and the likes).

Come join Lys in his new venture through the woods of Northwestern Italy. Avantgarde Music will take you to the Alps on October 29th.
