Majesty of the Crimson Moon - The Whispering of the Fullmoon

An album that evokes an inclination that it was crafted in two planes of existence simultaneously.
Synths warble and vibrate as an ever sinister presence harkening one’s own demise.
The guitars are caught in an endless duel, striking and clashing with a relentless fury.
Ravenous vocals and expressive drums seek to anchor these two elemental forces, providing focal points within the madness.
A nightmarish journey into hysteria that is as rewarding as it is punishing.
