Producent	<b>Dark Descent</b>

### Opis produktu

Cassette tape version of Malignant Altar's new album "Realms of Exquisite Morbidity." Silver sparkle tapes with black print. Second run

With only two demos under their belt since inception in 2018 it may seem MALIGNANT ALTAR have been somewhat quiet by modern standards. This entity has not been slumbering or resting on their laurels rather crafting the most fetidly obscene album imaginable. From its 80s horror influences introducing a barrage of offal that festers in the phantasmal form of rotten riffing and drudging drums layering themselves a thick and tarry swamp of instrumental decay. Vocally the snarly puke that fits the malignantly mesmerizing riff-scape gloriously to ensure only the most befitting disgust emanates into your speakers from the altar of putridity. Now some of these metaphors might lead you to think I am referring to a regressive band of simple playing ability and limited talent. This would be unforgivably far from the truth as the restless drumming and technically-edged riffs invoke the likes of Demilich amongst the flow of revolting hooks. Thundering along through five more typical tracks and a suitably spectral interluding instrumental the momentum of this record is unforgiving and yet they do not forgo dynamics either. Two years incubation in the crypts of sentient slime and what lurches forth from the slumbering spew is nothing short of magnificent. These Texans have flavor in their death - which knows when to add flare or just ride out some obliterating groove until the neck is granulated from headbanging. Have your corpse and eat it?
