Opis produktu

Invictus Productions is proud to present *Time's Withering Shadow*, a special split album between **Malthusian** and **Suffering Hour**. The CD version will be released on May 6th, to coincide with **Suffering Hour**'s upcoming European tour.

A pact forged in the oddest regions of Hell on tour in 2019, with *Time's Withering Shadow* do **Malthusian** and **Suffering Hour** present a sidestep from their normal offerings with this twisted trip through a dying mind. Both bands venture further into the experimental on their respective sides without losing sight of the horrible chaos they are known for. *Time's Withering Shadow* presents five tracks across 41 minutes of exclusive material: the musical equivalent to being attacked by knife wielding gypsies in some shithole, backwater truck stop in Eastern Europe. Mind-mangling death metal at its finest - and weirdest!
