Dear business partners,

Unfortunately, we received unexpected news from the pressing plant regarding the production of the **MARDUK – "Those of the Unlight" 3LP Box Set**.

A major manufacturing error occurred during the production of the empty box packaging, meaning that the entire box production has to be redone from scratch by the printing and manufacturing facility.

At this point, the pressing plant is unable to provide us with a precise delivery date. However, they have informed us that it could take until the **end of August** before the completed box sets are delivered to us.

We know this delay is extremely frustrating, and we sincerely apologize for this significant setback.
We are hopeful that production may be completed sooner than currently estimated, but unfortunately we cannot make any promises at this time.

Thank you very much for your patience, understanding, and continued support.
Denny / DSR

Marduk (SWE) – Those of the Unlight

Forever dying but never dead – Those Of The Unlight.

Even persons only fleetingly interested in the history of Black Metal are likely familiar with one of the genre’s vanguards and altogether most influential bands.
Thus, without further ado, let’s get right in the middle of things:

In order to honour the legacy of one of the pillars of Black Metal, we are extremely delighted to present you this deluxe triple LP boxset of MARDUK’s sophomore album *Those of the Unlight*.
33 years after its initial release in 1993, the full-length is still widely hailed for its timeless audial magic. Undoubtedly a legendary album it stands out even among MARDUK’s own discography. While *Dark Endless* still leaned heavily towards Death Metal and their later output frequently put emphasis on speed and brutality, it’s exactly on *Those of the Unlight* and its successor *Opus Nocturne* that MARDUK immortalized some of their most brooding and haunting compositions. Showcasing a perfect blend of dark atmosphere and unrelenting heaviness with an exceptional vocal performance by Joakim af Gravf who made his MARDUK debut on the album, songs like “Wolves”, “Burn my Coffin” or the ungodly title track will forever stand as beacons of supreme dark art.

This box-set comes with three LPs:

LP1: Those of the Unlight
Contains the full-length with considerably improved audio due to Devo Andersson`s remaster. Also, *Those of the Unlight* is for the first time officially rereleased with a faithful reproduction of the original cover and layout.
LP2: Unlicht 1994 – Live in Berlin/GER
Features a live show from the *Sons of Northern Darkness* tour in 1994.
LP3: Darkness Breeds Immortality – 30th anniversary show – Norrköping/SWE
Contains the 30th anniversary concert of *Those Of The Unlight* where the band played the album in its entirety.

Next to the 3 LPs, this limited box-set includes:
A huge double-sided A1 poster.
And a massive 60-page 12“ booklet with a lot of never-before-seen pictures plus a new interview with Morgan Håkansson.

Available as:
– black vinyl box (lim. 400)
– grey/black marble vinyl box (lim. 400)
