Opis produktu

The 6th studio album of the most notorious black metal band of all time is back in the store! By the power of darkness and the might of black-hearted will no two Mayhem albums have been or will be the same. Thus, the offering 'Daemon' is unto itself. Composed and decomposed with the same lineup—Necrobutcher (bass), Hellhammer (drums), Attila Csihar (vocals), Teloch (guitars), and Ghul (guitars)—that handled 'Esoteric Warfare' and performed 'De Mysteriis Dom Sathanas' in its entirety over the last few years, 'Daemon' also isn't a retrofit of classic songs like 'Freezing Moon', 'Pagan Fears', or 'Buried by Time and Dust'. That's what the live album, 'De Mysteriis Dom Sathanas Alive' (2016), was for. 'Daemon' is a chance for change, for new hells to be envisioned and offered. This black LP replaces the sold out Gatefold black LP & LP-Booklet.
