HELLS HEADBANGERS is proud to present *Cold Case Files*, a special compilation from MELTING ROT, on vinyl LP format.

Formed in 2017, MELTING ROT quickly made their presence felt in the underground with two EPs in as many years and then a three-way split after that. And while the full-length *Blood Delusions* followed in 2021 for the cult Headsplit Records, it’s arguably MELTING ROT’s short-lengths where their rotten grindcore sounds the foulest.

Remembering well the days when ultraviolent, super-underground grindcore reigned supreme, HELLS HEADBANGERS brings those pre-album releases together on one 33-minute slab of sluicing sickness. Appropriately titled *Cold Case Files*, the full force of the MELTING ROT experience can be felt like a sledgehammer to the brain. No more but definitely no less, this is all-caps GRINDCORE in the grand tradition of early Extreme Noise Terror, Phobia, Nasum, Spain’s HAEMORRHAGE, and of course earliest Napalm Death. D-beat to blast to repeat, with heaviness increasing as the years go on (and thus deeper on the 33-minute comp) – even fans of prime Goatpenis will find much to melt their faces with these *Cold Case Files*. Canoes, leave the hall!
