## Opis produktu

Deluxe picture CD Digipak with 8-page booklet + 24-page booklet.

Discover EMBRASEMENT, the 11th studio album by MISANTHROPE, a significant chapter in the history of French Metal! Misanthrope returns after 9 years since Alpha X Omega: The Magisterium of Abnegation.

With EMBRASEMENT, a collection of 13 brand new tracks forged in the excess, flamboyance, and high standards that have made this cult band of French Extreme Metal legendary, this album represents a complete rebirth, already giving rise to new classics:
• the historical "Édificateur de l'Anjou,"
• the flamboyant "Le Diagnostic des Aiguilles,"
• the diabolical "Helloïse,"
• and the atmospheric Metal hit from the music video "Comtesse Vampyr."

With EMBRASEMENT, Misanthrope delivers a total work where each track seems to erupt from a blazing fire. The band fully embraces its Extreme Metal heritage, both historical and grandiose, while pushing the sophistication of its arrangements, the quality of its production, the depth of its lyrics, and the virtuosity of its performances even further. The album lives up to its name: it is a dizzying and dramatic ascent, from the birth to the final confrontation of the conceptual hero "Alceste de Haine" from 1666 to 2666. More than just an album, it is a combustion of the human soul, a civilizational incandescence. An artistic conflagration born from the musicians' unquenchable passion for Extreme Metal. This 11th opus also marks a new era for the band: it is the first album entirely recorded and mixed at Studio Henosis, offering a wide soundscape, rich texture, and unprecedented finesse. Misanthrope's creative power remains intact and amplified, even more severe and inspired than ever. The philosophical, sought-after, and poetic vision of S.A.S de l'Argilière's lyrics reaches new heights. From the very first riffs, the band asserts its strength and unique aura. The compositions, of rare intensity, oscillate between extreme fury, suffocating atmospheres, and the virtuosic mastery of Jean-Jacques Moréac, Anthony Scemama & Gaël Féret. The orchestral grandeur, acquired over decades, shines brightly here: it is the grand return of symphonic tracks for Misanthrope, driven by an innovative approach to orchestration combined with a massive Metal sound.

The technical mastery and literary flair, unique to Misanthrope, are more pronounced than ever. A true case study in the global metal landscape.

Spanning over 65 minutes of music, EMBRASEMENT unfolds a monumental sound architecture, where each track explores a different facet of misanthropy, passion, and the tragic excesses of humanity. EMBRASEMENT stands as an essential work in Misanthrope's career: a celebration of fire and mastery, honoring over 37 years of excess, audacity, and innovation by lovers of the underground scene.

This Deluxe digipack is the fully French-sung version. An entirely English-sung version, titled "Conflagration," is also available separately.

The stunning cover art is by Greek artist Giannis Nakos, renowned for his works with Kamelot, The Haunted, Septicflesh, Suffocation, and more. His powerful, detailed, and mythological style enhances the cosmogony of Misanthrope, giving EMBRASEMENT a visual identity as monumental as its music.
