## Opis produktu

Visionnaire is the third album by France Extreme Metal Legends Misanthrope, originally released in 1997. The album gave us "Futile Future" & "Bâtisseur de Cathédrales" arguably one of the band's most well-known songs beyond its dedicated following. Visionnaire is a piece of France Extreme Metal history that every fan must own!

France Extreme Metal Pioneers Misanthrope's 3rd album 'Visionnaire' on Deluxe Digibook for the first time.
A masterpiece of göteborg melodeath mixed with Misanthrope original Avant-Garde musical skills.
One of the most successful album of the band earning a loyal fanbase in the underground music community and critical acclaim.
For this 3rdth album Misanthrope experimented with göteborg melodeath metal elements.
It's the first album of a non Scandinavian band recorded in göteborg's Studio Fredman.
Produced by the famous Fredrik Nordström, Studio Fredman owner (well-known recording home of In Flames, At The Gates, Dimmu Borgir, Arch Enemy, Opeth).
Featuring Anders Friden & Jesper Stromblad both from In Flames.

Final re-issue that celebrates the 35th anniversary of the band. Their 3rd album from '97 by a legendary French band, for many perhaps their best work, the most göteborg melodeath. A true masterpiece!
