INFO:
The second album from Trondheims MISOTHEIST is finally upon us after almost 2 years of various delays, and what a masterpiece it is! The craftsmanship behind these tracks are simply out of this world, and rarely does a band surprise you with twists and turns like Misotheist does. To deliver something as unique as this anno 2020, is a feat in its own right. Rest assured we are still talking Black Metal in its true shape and form, but some releases are just on their own level and this is one for those. For me personally this is among the best albums I have heard in many years!
The anticipation among fans has been extremely high after their stunning debut released back in 2018, and it's safe to say the band delivers and then some.
If Terratur Possessions ever had a 'sound', I would say 'this is it'.
