Opis produktu

Danish trash metal feat the Stutzer brother (Artillery)

During an early 90's break in the Artillery career, the Stutzer brothers Morten and Michael formed a new band, Missing Link. Danish thrash metal, of course close to Artillery, but slightly different as well. Missing Link recorded from 1991 up to 1997 two demos, one ep and two full length albums. Lobotomized was recorded at the famous Sweet Silence Studios in Denmark with Flemming Rasmussen (Metallica, Morbid Angel, Blind Guardian, Artillery) early 1997. The album contains rare pics, liner notes and two rare bonus tracks taken from the 'Merry Xmas Everybody' ep from 1995.
