Opis produktu

Napalm Death's "From Enslavement To Obliteration" has been remastered especially for this release from the original tapes with Full Dynamic Range (FDR), allowing the music's nuances to shine through and giving the whole album a more ferocious and dynamic sound than ever before, and enabling the listener to immerse in the full audio chaos like never before.

This full dynamic range release is a reaction to the loudness war which has affected the music scene since the '90s, with artists and labels striving to producer ever-louder CDs. Earache firmly believes the playback volume should be in the hands of the listener, not the producer - that's what the volume control is for!
