### Opis produktu

Jewel case cd with black tray, 4-page booklet printed on 135gsm art paper

Much as its cover art forecasts the contents ahead, I Helvetes Forakt effortlessly transports the listener to wintry, alluringly desolate landscapes, working as much atmospherically as they do aggressively. More than ever, Nattverd embody the cryogenic majesty of classic Norwegian black metal, conjured during the glorious 1990s but by no means tethered to that past. If anything, the quintet have their sights set on the distant future, patiently pushing their sound forward to icier heights (and depths) whilst maintaining their distinct poise and personality.
