Opis produktu

Tomb Of The Forgotten – NECROPSY's early demos reissued on vinyl in January via Svart Records

NECROPSY is one of the few really legendary bands of the obscure Finnish death metal scene of the late '80s / early '90s. Dark and twisted death metal in the vein of early **SENTENCED**, early **AMORPHIS**, **CONVULSE**, **DEMIGOD**, **PURTENANCE**, **DEMILICH** and **ABHORRENCE**. The band hailing from Lahti, Finland was formed in 1987 and released the material presented on this compilation before taking a 14 year long hiatus starting in 1994. Founding member **Janne Kosonen** along with his brother **Tero** re-established **NECROPSY** in 2008 and they are still active to this day.

Tomb of the Forgotten (The Complete Demo Recordings 1989-1993), originally released by **Century Media** in 2013, is the first ever official demo compilation fully authorized by the band and includes **NECROPSY**'s all early recordings with 40 tracks in total. The entire audio material has been carefully remastered from the original master tapes at **DMS Mastering** (**GRAVE**, **MORBID**, **ASPHYX**) for the best possible audio quality. Includes extensive interview with the band, tons of pictures, scans of concert flyers, demo artwork, fanzine reviews, and more.

Tomb of the Forgotten (The Complete Demo Recordings 1989-1993) is available on Svart exclusive 4LP slipcase edition with multicolor vinyls, limited petrol green vinyls, and classic black vinyls. Release date January 10th 2024.
