Opis produktu

There's black metal, there's death metal. Then you have NECROWRETCH, a band which combines the best of both worlds into music made straight from the depths of hell.
The band may be coming from France, their debut ‘Putrid Death Sorcery’ spawned right out of the inferno. So far, they've released two classic blackened death albums on Season of Mist; ‘Satanic Slavery’ and ‘The Ones From Hell’.
Now, NECROWRETCH are back with ‘Swords of Dajjal’, an album that is quite literally the manifestation of the antichrist. There are no messiahs, only NECROWRETCH who, with this brutal portrayal, breaks open the gates of heaven, ripping out its chains – that's going to be a pricy expense for the Lord!
Expect brutal blast beats, maximum riffage and deafening bass tones.

For fans of NECROPHOBIC, GROTESQUE, MERCILESS.
Artwork by Stefan Tanneur (aka Manifest).
