Nifelheim (SWE) – Devil’s Force

After having caused a great stir with their self-titled debut, on *Devil`s Force* from 1998 the swedish savages don`t stray one inch from their path.
NIFELHEIM`s second full-length picks up the smouldering rubble from the debut and takes their unmistakable style up a notch. Aided by a slightly fuller but still gritty production, the album is a bludgeoning beast of dirty metal infused with lethal doses of satanic insanity.
Filled to the brim with memorable songs *Devil`s Force* is yet again an outright success and an indispensable underground-classic.

A very in-depth interview with Tyrant and Hellbutcher highlighting the early days of the band until their last opus „Envoy Of Lucifer“ was also conducted for these reissues.
You can read parts of this interview in the corresponding releases as well you will find many unseen pictures and material from the band in the large booklets for every title.

Luxurious hardcover digibook measuring about 14×14 cm.
It contains the interview and many never before-seen pictures spread over a 30 pages booklet.

Available as hardcover digibook CD and music cassette.
