Nifelheim (SWE) – Envoy Of Lucifer

After three highly acclaimed albums *Envoy Of Lucifer* represents the fourth and last full-length of NIFELHEIM.
Originally released in 2007, the album is certainly the most professional out of the bunch. Benefitting from a rather clean all-analogue production and many years as musicians under their belts the record, most notably, surprises with intricate arrangements, proficient guitar solos and the introduction of new elemts to NIFELHEIM`s sound.
Hellbutcher`s and Tyrant`s lifelong worship of IRON MAIDEN has never been more apparent than on *Envoy Of Lucifer* too.
Despite all this, the album is still 100 % NIFELHEIM with all of their trademarks from previous releases intact.

For this re-release *Envoy of Lucifer* has been been mastered at the correct speed for the first time.
Therefore the album can finally be listened to how it was orginally supposed to sound.
