Opis produktu

Black double vinyl in gatefold. 1st pressing 200 copies worldwide.

NIGHTBRINGER are rising to the forefront of the currently prospering American Black Metal scene that has long stood in the shadow of its European counterpart. The band formed in the year 1999 and is beyond all doubts of being trend jockeys. Frost glazed hymns burning with bitter buzzing melodies, over which deviously arranged multilayered vocals are spewing throat-grinding blasphemies mark the band as traditionalists holding up the orthodox canon of second generation Black Metal. With the albums "Death and the Black Work" (2008) and "Apocalypse Sun" (2010) heralding their coming as well as performing with major acts such as WATAIN and KRIEG, NIGHTBRINGER are now ready to conquer outside their homeland with the new American darkness of "Hierophany of the Open Grave"!
