## Opis produktu

In the remote forests of north-eastern Finland, a primal force has been unleashed. Noitila, translated roughly as ‘Witches’ Bay’, resonates with the ancient echoes of a sacred land where worlds and energies intersect.

Conceived and recorded in a family cabin, employing minimalist equipment and instruments, “Langennut” captures an authenticity that is as powerful as it is pure. The band used an old leather chair as a bass drum, recorded acoustic guitars in the open forest, and wrote lyrics through psychography. No metronome, three microphones, and a passion for the ancient sounds of Ildjarn, Ulver, Isengard, Bathory, Satyricon, Tulus, and Beherit – this is black metal distilled to its essence. Primitive, soulful, and unfiltered.
