### Opis produktu

Once again, HELLS HEADBANGERS opens the vaults and collects NUNSLAUGHTER's most massive "The Devil's Congeries" yet: 11 split 7"s, two other 7" EPs, the *Damned in Japan 7"* boxset, the *Novel Nasty Nugget* LP, and even a reissue of the *Damned in Japan* DVD! Sure to boil the blood of the band's rabid, diehard fanbase, this latest *The Devil's Congeries Vol. 4* will be released on a triple-CD with DVD and continues the series of eight exhaustive collections that will compile every single short-length NUNSLAUGHTER vinyl release - a band whose discography is bested number-wise only by Japan's Sabbath and Belgium's Agathocles.

NUNSLAUGHTER's best work is considered by many to be their EPs, and *The Devil's Congeries Vol. 4* displays the band's trademark Devil Metal in all its diabolical 'n' dirty glory, collecting EPs and splits from 2006-2010: splits with Destructor, Unholy Grave, Syphilitic Vaginas, Zombie Ritual, Sloth, Goat Sodomy, Mutilated Messiah, Fetus Eaters, Radiolokator, and Evil Wrath as well as the *Fuck That Cunt* and *Fathers of Fright* EPs and the aforementioned *Damned in Japan 7"* boxset and *Novel Nasty Nugget* compilation LP. Adding to that rare inclusion of the *Damned in Japan* audio is a reissue of the *Damned in Japan* DVD, previously released by HELLS HEADBANGERS in 2008 but long out of print, which documents an Osaka show from 2005 where NUNSLAUGHTER were welcomed as reigning kings.

The double-LP vinyl version will feature all the split and EP material only. As usual, topped off by an elaborate booklet archiving each EP's cover artwork and pressing information, *The Devil's Congeries Vol. 4* is mandatory metal worship!
