Opis produktu

Diehard dark purple vinyl with blue undertones, limited to 100 copies.
The rare debut demo of this cult death-thrashing horde from Quebec, Canada for the first time on vinyl! Before consolidating their style into a more technical and progressive approach, OBLIVEON were delivering pure, savage-to-the-bone Death/Thrash in full speed and aggression! This F.O.A.D. reissue includes their self titled demotape sourced from the band's archival master plus a good sounding live recording from the same era, showing the insane amount of speed and sonic violence these maniacs were able to unleash.. 13 SONGS! LP with insert containing rare photos and flyers from the period, scans of the original cassette tape and a great introduction by underground wizard Laurent Ramadier (Decibels Of Death / Snakepit).
