Obsidian Scapes (GER) – Death Chants Echo From Aphotic Void

BEWARE!
THE ECHOES OF DEATH'S HORRID CHANT
ARE DRAWING CLOSER...

From the endless fields of obsidian darkness rise eerie hymns, echoing an ancient, long-forgotten apocalypse that slices through the eternal night. OBSIDIAN SCAPES are the embodied nightmare – a deathly veil of cascading riffs, raining down like the lethal erosion of cosmic worlds. Layered with relentless, thunderous drums and ghostly dirges, their music summons visions of a dying universe.

Their sounds crawl like molten madness into the depths of the mind, painting aphotic images of shadowy, chthonic cathedrals and titanic monoliths rising against a crumbling horizon. Despair and anguish permeate every note – dirges for a world drowning in the abyss of decay and tributes to powers lurking beyond human comprehension.

52 minutes of pure DOOM!
