Opis produktu

October Tide was a side project formed by two members of Katatonia with their style not at all far removed from that fine group. Melancholic, sorrowful mid-paced metal, with death metal vocals laid over the top. Jonas Renske performed the vocals on 'Rain Without End' like he did on all early Katatonia albums, intense, deep and very atmospheric. The October Tide lineup during 'Rain Without End' was: Fredrik Norrman: Electric, acoustic and bass guitars and Jonas Renske: Drums, electric and acoustic guitars and all vocals.

- Debut album re-issue featuring Katatonia members Jonas and Fred;
- Recorded by Dan Swano (Opeth, Dissection, Edge of Sanity);
- • For fans of the Katatonia albums 'Brave Murder Day' & 'Dance of December Souls'.

First on vinyl with original 1995 oil painting cover, varnish sleeve version!

Colours: Black, Light Blue heavy smoke effect marbled, and Dark Blue Transparent!
