A must have in the history of American Death Metal remastered!

First time EVER on vinyl.

Chicago's iconic technical Death Metal band Oppressor was formed in 1991.

Oppressor is reformed and has started playing live again!

They eventually hooked up with Olympic Recordings, which released their second studio album, "Elements of Corrosion", in 1998.

Featuring more structured compositions, and an improved production, the album became the group's breakthrough, and ultimately allowed them to expand their audience.

Pure early 90's US Death Metal that fits in with the likes of Suffocation, Broken Hope, Gorguts, Cryptopsy and Immolation.

- Classic early 90's US Death Metal for fans of early Suffocation, Gorguts, Cryptopsy and Immolation
- Remastered by Erwin Hermesen at Toneshed Recording Studio, Horst, the Netherlands (a.o. Pestilence, Trouble, Malevolent Creation, Master)
- Artwork reconstructing by Wouter Wagemans
- Oppressor is back and will be performing live in May 2024 on Maryland Deathfest
- CD version includes a bonus disc that contains a killer live recording!

For fans of: Suffocation, Broken Hope, Gorguts, Cryptopsy and Immolation
