Opis produktu

Classic Jewelcase CD with white tray. Includes booklet with pictures, lyrics, and info accompanied by a 24 x 24 cm fold-out poster with the artwork - limited to the first pressing.

Her Bones in Whispers is an album to lie on the floor to. It is not written for parties or other amusements. Neither is it a background soundtrack. It is a record for the single individual in a contemplative state.

“This is how we perceive the sound of the early 2020s” states the collective’s artistic mastermind Stefan Hackländer. With balanced instrumentation, meandering from pure electronica to guitar, bass, and drums – and anything in between – with pure instrumentals and songs with varying vocal contributors Ordeal & Plight transform feelings of sadness, anxiety, and heartbreak into audio. Nevertheless, musical influences can be heard. Stefan Hackländer describes it as “something somewhere between Angst Skvadron, Klaus Schulze and Portishead. A merging of diverse influences that create this musical vortex which we call Ordeal & Plight.”
