Opis produktu

Almost three years after their crushing debut “Carved in Flesh”, the Oldschool Death Metal Maniacs, best known as Organic, are ready to release their upcoming new Studio Album entitled “Where Graves Abound” via Testimony Records on October 22nd 2021.

ORGANIC is the chaotic group formed in 2013 in the depths of the Alps and can only be described as one of a kind in the music genre. The unholy chainsaw sound is achieved by the guitarists Benni and Daniel which bring a whole new variety of vigorous riffs and nonsense to the mix. Frontman Max brings the chaotic energy not only live but also in the studio to a whole new level and gobs his soul onto the vocal tracks. With the trenchant drumming and forceful bass-playing by Julian and Markus a tremendous thunder reigns over the Tyrolean Alps.

“Where Graves Abound” features nine songs stretching over a runtime of 40 min. The listener will experience the most devastating dosage of the Chainsaw sound the band has ever put out.
