## Opis produktu

Release date: April 17th 2026. Comes in a noble Digi-CD.

Scandinavian Folk Metal classic remastered and finally available on vinyl for the first time!

Otyg's debut full length "Älvefärd" sits at the quiet edge of Metal, where Folk, atmosphere, and melody matter more than weight.

"Älvefärd" is built on restraint and feeling.  Clean vocals, violin, mouth harp, sparse guitars, and songs that flow naturally rather than force themselves forward. "Älvefärd" is not an album about brutality or speed.  It lives in mood, tradition, and sincerity. Vintersorg and Cia carry the music with strong, passionate vocal performances, grounded in a distinctly Scandinavian tone that feels honest and unpolished.  Simple arrangements, but never empty.  Every note serves the song.

Remastered in 2025, this re issue enhances the clarity without stripping away the warmth and calm that define the record.

The result is "Älvefärd" as it was always meant to sound.  A cornerstone release for fans of Otyg, Vintersorg, and Folk Metal rooted in atmosphere rather than excess.

• First time on vinyl, comes in a gatefold edition
• Remastered by Vintersorg from the original tapes for the best audio experience
• Featuring Andreas Hedlund of Vintersorg

For fans of: Storm, Vintersorg, Isengard, Falkenbach
