Opis produktu

Release date: April 17th 2026. Comes on 140 gram black vinyl, in a 3 mm sleeve with insert in a polyethylene storage sleeve, limited to 300 copies.

Cult Scandinavian Folk Metal! Otyg's demo recordings "Galdersång Till Bergfadern" remastered from the original tapes!

The third and final Otyg demo stands as the last hushed whisper before the band stepped into the light. Recorded in 1997 and never officially released at the time,

"Galdersång Till Bergfadern" laid the foundation for much of what would become "Älvefärd", several tracks were later re-recorded for that full-length.

Here the melodies are ancient, the rhythms untamed, and the group already locked in on their own language of Scandinavian Folk and Metal. You can hear the roots of violin, flute and lute dancing with guitar and voice, all pushing forward into territory only Otyg could define.

Remastered in 2025 by Vintersorg, this re-issue keeps the raw edge intact while giving the recordings the clarity they deserve.

• Finally available on CD and LP with complete new artwork
• Remastered by Vintersorg from the original tapes for the best audio experience
• The cult demo is a collector's item
• Featuring Andreas Hedlund of Vintersorg

For fans of: Storm, Vintersorg, Isengard, Falkenbach
