Opis produktu

Cult Scandinavian Folk Metal! Otyg's demo recordings "I Trollskogens Drömmande Mörker" remastered from the original tapes!

"I Trollskogens Drömmande Mörker" is Otyg stepping further into their own world.

More bite, more movement, and more confidence than "Bergtagen". The songs are tighter, the melodies sharper, and the playing more adventurous, without losing the natural Folk feel.
The violin and female vocals are woven into the music, not sitting on top of it. They add depth and character rather than decoration.

Remastered in 2025 by Vintersorg, this re-issue keeps the raw edge intact while giving the recordings the clarity they deserve.

• Finally available on CD and LP with complete new artwork
• Remastered by Vintersorg from the original tapes for the best audio experience
• The cult demo is a collector's item
• Featuring Andreas Hedlund of Vintersorg
