Opis produktu

Beautiful digipack CD with booklet.

After 30 years of existence Pandemia delivers the best Death Metal album ever to come from Czechia!

Czech Death Metal outfit Pandemia returns with "Darkened Devotion," their most mature release yet.

Celebrating 30 years of relentless brutality, this sixth full-length is a masterclass in old-school ferocity, sharpened by modern precision.

"Darkened Devotion" delivers a barrage of blast beats, crushing riffs, and abyssal growls. Tracks like "A Sea to Breathe in" and "Blessed, Blessed Oblivion" hit with unrelenting force, capturing the raw power that's defined Pandemia since 1995. Having decimated stages in over 30 countries alongside legends like Death, Morbid Angel, and Vader, Pandemia proves their legacy is forged in sweat, blood, and unyielding devotion to Death Metal!

- Mixed by Miguel Tereso at Demigod Studios (Gaerea, Analepsy, Bizarrekult)
