A deeply introspective work, the 2023 “The Rime of Memory” is the second chapter in Panopticon’s trilogy exploring ageing, grief, and the emotional fallout of environmental collapse. Expanding on the themes introduced in “...And Again into the Light”, this album leads listeners into colder, more cinematic territory – weaving Appalachian folk, symphonic grandeur, and searing metal into a single, immersive journey.

With sweeping orchestral movements, a global choir, and collaborations in both sound and visual art, “The Rime of Memory” stands as one of Austin Lunn’s most expansive statements to date. Shifting between moments of crushing intensity and quiet contemplation, it draws the listener into a world shaped by memory, sorrow, and a fragile sense of hope.
